Subject: WRN-5

Raji – please see attached Draft Workplan Refinement Notice AO1-5 regarding the on-property groundwater and off-property soil investigations. Many of the locations have not been revised and are as shown in the RI/FS Work Plan. Based on the data collected to date, we have added some wells and borings and moved a few wells and borings. The rationale for the proposed work will be discussed during our data review meeting on May 8, but we wanted to get this in front of you well ahead of that.

We look forward to discussing this with you.

Let me know if you have any comments or questions in the interim.

Regards,

Matt
